

Kentucky Nursery LISTSERV Bulletin

University of Kentucky Nursery Crops Team

End of December 2015

Happy Holidays!

Winter officially starts on the 21st with the winter solstice, but the warmer weather we've had over the last few weeks has seemed more like early fall. The long range outlooks show warmer and wetter than average weather for the next 4 weeks, at least. For reference, average temperatures across KY in January are highs in the lower 40s with lows in the mid 20s, with a little over 3" of precipitation.

In other news, **KNLA's Spring Training & Showplace** will be happening **January 27th–28th** in Louisville. The schedule, CEU approvals, hotel and registration information are posted here:

<http://knla.org/event/knlas-spring-training-showplace/>

We hope to see you all there!

January 27th, 28th 2016

The University of Kentucky's **Nursery Crop Extension Research Team** is based out of two locations across the bluegrass to better serve our producers.

The **University of Kentucky Research and Education Center (UKREC)** in **Princeton** serves western Kentucky producers while our facilities and personnel on main campus in **Lexington** serve central and eastern Kentucky producers.
